CAREER SUMMARY

I am a fresh graduate of Information System, skilled in Full Stack Web Developer with a strong foundation in HTML, CSS, JavaScript, PHP, Python, and MySQL, backed by 3 years of hands-on experience. My expertise extends to multimedia editing and UI design, utilizing some popular tools such as Photoshop, Premiere Pro, Figma, and Canva. Having collaborated with HMPSSI UPH and Indonesia Gaming Community makes me learned for becoming leadership roles. Thanks to them, I'm got practiced for open communication and teamwork, and integrity. My portfolio includes successful web development projects like Civil Tech Structure Network (previously Calon Teknik Sipil) and API Integrator with Marketplace to manage product stock at pharmacy store business, showcasing my problem-solving skills and detail-oriented thinking. After graduating from UPH, I am committed to continuous growth, actively pursuing emerging technologies such as React, Flutter, and NodeJS.
